FROM OUR CHAPLAIN

Veterans Day (originally known as Armistice Day) is a federal holiday in the United States observed annually on November 11, for honoring military veterans, that is, persons who have served in the United States Armed Forces.

As veterans of foreign wars, and as members of an organization whose primary mission is to serve and care for those who have served, we understand that Veterans Day is a day of deep significance ... of opportunity. It is a day we recognize and honor the millions of men and women who answered when their nation called.

With the Covid-19 issues there will be no Veterans Day program at the Arena this Veterans Day. We must honor all Veterans even if there is no formal program.

This past month Post 51 lost a Life Member. Comrade Herb Colburn was laid to rest.

Yours in Comradeship

Dona Feuz Treasurer and
Membership Chairman

On November 11, 1919, U.S. president Woodrow Wilson issued a message to his countrymen on the first Armistice Day, in which he expressed what he felt the day meant to Americans:

ADDRESS TO FELLOW-COUNTRYMEN

The White House, November 11, 1919.

A year ago today our enemies laid down their arms in accordance with an armistice which rendered them impotent to renew hostilities, and gave to the world an assured opportunity to reconstruct its shattered order and to work out in peace a new and juster set of international relations. The soldiers and people of the European Allies had fought and endured for more than four years to uphold the barrier of civilization against the aggressions of armed force. We

ourselves had been in the conflict something more than a year and a half.

With splendid forgetfulness of mere personal concerns, we remodeled our industries, concentrated our financial resources, increased our agricultural output, and assembled a great army, so that at the last our power was a decisive factor in the victory. We were able to bring the vast resources, material and moral, of a great and free people to the assistance of our associates in Europe who had suffered and sacrificed without limit in the cause for which we fought.

Out of this victory there arose new possibilities of political freedom and economic concert. The war showed us the strength of great nations acting together for high purposes, and the victory of arms foretells the enduring conquests which can be made in peace when nations act justly and in furtherance of the common interests of men.

To us in America the reflections of Armistice Day will be filled with solemn pride in the heroism of those who died in the country's service, and with gratitude for the victory, both because of the thing from which it has freed us and because of the opportunity it has given America to show her sympathy with peace and justice in the councils of nations.
